# HIGH COURT RULES AGAINST LITTLE BROWN MEN

## Moscow Bandits Admit Slaughtering Hundred Innocents

### ROBBERY WAS MOTIVE THUGS IN CITY MOSCOW

In One Instance Eighteen Members of Birthday Party Were Ruthlessly Slain

### FAMILY OF EIGHT MURDERED

Horrible Story of Barbarism Is Related by Culprits Who Confess to Crimes

MOSCOW, Nov. 13.—Five men arrested in Moscow police have admitted murdering 108 men, women and children. Their motive, they admitted, was robbery. In one instance 18 persons attending a birthday party were killed. Another time an entire family of eight was murdered, and in other cases the robbers took the lives of four or five persons at the same time so no witnesses were left to tell the tale of the horror. The crimes were committed in various parts of Russia in a period covering more than a year.

### W. J. TOBIN HOST AT DINNER PARTY

W. J. Tobin, the popular mining man of the camp of Pioneer, who is developing the Pioneer and Mayflower mines, and who was a visitor to Tonopah Saturday, upheld his reputation as a whole-souled and generous host when he entertained a dinner party given at the Belmont cafe. The repast was served in seven courses and was most elaborate in every detail. Among those who enjoyed the hospitality of Mr. Tobin, were Mr. and Mrs. M. J. McGuigan and Master Bobbie McGuigan, Mrs. H. McMahon, Mrs. E. Van Meter, Miss T. M. Petrucci, A. Ferguson, Jack Alyward, Harry Bendall, Dick Alyward and W. W. Booth.

### LIGHTNING IS CAUSE OF GREAT CONFLAGRATION

Humble Oil Fields Endangered as Oil Tank Gets Ablaze Causing Damage

HOUSTON, Tex., Nov. 13.—The most disastrous fire in 21 years in the history of the Gulf coast oil fields is burning in the Humble section, 17 miles northeast of here. Three quarters of a million barrels of oil are afloat and with a stiff wind from the north, fully two million barrels are endangered. It was started by lightning Sunday afternoon.

### MIDDLE WEST SUFFERS FROM TERRIFIC STORM

DENVER, Colo., Nov. 13.—Relief from the first real snow storm of the winter in the Rocky mountain states, which resulted in snow averaging from ten inches to two feet in some districts and sent temperatures to four below zero at Billings, Mont. and Lander, Wyo., was promised today by the district weather forecaster.

THE WEATHER	
Local observer United States weather bureau.	
Temperature	5 a.m. Noon
Current	20 31
Wet bulb	18 26
Relative humidity	73 53
Temperatures, Extremes	
1922	1921
Maximum yesterday	38 61
Minimum yesterday	23 43

### U. OF N. FOOTBALL SUFFERS SEVERE LOSS

RENO, Nov. 13.—The building used as training quarters by the University of Nevada football eleven, which with the Mackay field was presented to the university by Clarence Mackay, was partially destroyed by fire today of unknown origin. All football and other athletic trophies were saved by the students but damage to the building will approximate \$20,000, according to some estimates.

### SHERIFF OF FERRY COUNTY FACES A FEDERAL JURY

SPOKANE, Wash., Nov. 13.—The selection of a jury in the trial of Sheriff Thomas Barker, of Ferry county, north of here, and five other men on charges of conspiracy to violate the federal prohibition laws, occupied the federal district court today. Barker was released sheriff last Tuesday. The men are charged with having conspired to transport liquor between Canada and Pacific northwestern cities.

### CANDELARIA IS HUMMING ALONG WITH ACTIVITY

First Cleanup of Two Hundred Ton Mill Will Be Made About December 1

The new cyanide mill of the Candelaria Mines company is running like a watch and is now treating an average of more than 200 tons of ore daily with an extraction of metals considerably higher than was indicated by laboratory tests. The units now in commission have been operating day and night without a hitch and without a moment of lost time. Precipitation and filtering were started this week and the big sand stacker was put in use Thursday. The long inclined conveyor used to stack waste sand from the mill is similar in design to that employed for like purpose by the Tonopah Mining company at its Desert mill at Millers.

The first clean up of the mill is expected to take place about Dec. 1, by which time the plant should be operating nearly at capacity. It is now indicated that the capacity of the present equipment will be approximately 350 tons daily, instead of 300 tons as rated by the designers. The tonnage is being increased gradually in order to develop together the economic and metallurgical phases of the process and early next year additional equipment will be installed that will give a capacity of between 500 and 600 tons daily.

Milling results have surpassed the expectations of metallurgists, notably in connection with the classification of pulp, the process yielding 60 per cent sand and 40 per cent slime. So complete is the separation that the sand, when the charge is drained, contains less than 10 per cent moisture. This result is achieved by means of Dorr bowl classifiers, a combination of the Rake classifier and Dorr Thickener, employing principles adopted on a large scale in the 2500-ton mill of the United Comstock Mines company near Virginia City. The company's new assay laboratory is in operation, keeping a close check on ore sent to the mill.

Mine conditions continue satisfactory, according to statements by Consulting Engineer C. D. Kaeding and Superintendent C. A. Bennett. The Intermediate or One-Six level of the Lucky Hill mine has been advanced more than 75 feet in ore assaying from 20 to 72 ounces silver per ton and this ore has been opened for a width of 16 feet with only the hanging wall exposed. In the latest report sent to F. M. Manson of the executive board it was stated that this ore, across 16 feet, averages around \$40 per ton. Ore broken recently from the walls of the Jar-mouth stope in the Lucky Hill mine has been assaying \$33 per ton. The bulk of ore now being fed to the mill is stope fills from the Northern Belle mine, assaying from 12 to 15 ounces silver.

### THOUSANDS DIE AND MANY ARE NOW HOMELESS

Rescue Forces Being Mobilized to Bring Relief to Stricken People

### Lines Communication Down

Fourteen Hundred Miles Coast Have Been Affected by Violent Upheaval

SANTIAGO, Nov. 13.—Relief forces to aid a thousand made homeless by earthquakes throughout Chile last week and flooding waves which followed (the shocks), are being mobilized. The death toll probably will be at least 1000, it is estimated, and property loss will run into the millions, as several towns are almost entirely wiped out, and heavy damage to buildings and communication lines, and particularly along 1400 miles of coast have been affected by the huge waves, has resulted from a violent upheaval of nature.

The inland town of Valparaiso is in ruins with 300 dead and about 600 injured. In the collapse of a prison 12 inmates were killed and others injured. The entire population is without food or adequate medical aid.

### CAPITALISTS TO DEVELOP FAMOUS OLD GOLD MINE

Mahoe Mine Near Sodaville Now Being Given Attention After Twenty Years

A comprehensive campaign of development has been inaugurated upon the famous old Mahoe property in Mineral county which is situated 11 miles southwest of Sodaville. Capitalists from Glendale, Calif., have taken over the holdings and a force of ten men is at present employed in development. A number of tunnels are being driven into the mountain to cut a series of veins that show rich croppings on surface, and which will give backs of from one to several hundred feet.

The Mahoe mine has been in idleness for almost 20 years, but previous to that time a production of \$150,000 resulted, the values being principally in gold. The ore has invariably been of a high grade and engineers who have examined the property, voice the opinion that the mine will eventually become one of the substantial producers of southern Nevada, and that the outlook is promising for the section wherein it is situated becoming the scene of considerable activity.

Frank Lee, well known truck driver, left today for the scene of operations driving a five-ton truck that was loaded to capacity with T-rails, mine cars and other equipment that is needed. Supplies will continue to be taken as it is the intention of the syndicate backing the enterprise to prosecute development throughout the winter months. Ample finances are reported as having been subscribed to insure all plans being carried to a successful issue.

### ELECTION RETURNS ARE SLOW IN ARRIVING

No more returns from the outlying districts, Sharp, Sunnyside and Ash Meadows, of the recent election, had been received up until this afternoon although they are expected to arrive almost any day. Current Creek results are not known by reason the judges and clerks failing to attach a marked ballot containing the results of the vote. The official canvass will probably be made on Friday.

### HANKOW BANDITS HONAI PROVINCE DEFEAT TROOPS

Ten Thousand Holding Entire Kioshan District and Terror Reigns

SHANGHAI, Nov. 13.—It is reported from Hankow that bandits in Honai province, who have been kidnapping foreign missionaries and terrorizing the country, now numbering about 10,000 are holding the entire Kioshan district. The outlaws have defeated troops sent against them. Two brigades more have been dispatched from Yencheng as reinforcement.

### FLEET TRUCKS IS MOVING ORE FROM ROYSTON

Canadian Leasing Company Makes Third Shipment from Golden Eagle Claim

The entire fleet of trucks of the Wittenberg W. & T. Co., is engaged today in bringing in the third shipment of ore from the Golden Eagle claim at Royston, which is operated under lease by the Canadian Leasing company. Movement of the ore, which will consist of between 45 and 50 tons, was started Sunday, and the product is being consigned to the Belmont mill. Instead of the Desert mill at Millers, by reason of the collapse of one of the big solution tanks at the latter plant which necessitated the cessation of operation for a few days.

The ore being delivered today may be termed second class, although it is expected to return values of close to \$100 per ton. The lead contents, which will be lost, are estimated to be about 6 per cent, but this loss is more than made up through the saving that will be effected in freight charges were the ore sent to Salt Lake City.

The Golden Eagle lease, formerly known as the Betts, is making a splendid showing. At the bottom of the 55-foot incline shaft drift, ing to the north is being prosecuted with vigor and during the progress of the work high grade ore has been left in the bottom of the drift that shows a width of two feet, worth on an average of about \$500 per ton in silver and gold. There is no apparent reason for believing that there is any likelihood of a cessation of the persistency of the ore-shoots, and for this reason it is the intention of W. E. Edwards, engineer in charge of development, to sink on the ore veins.

J. A. Logan, who is heavily interested in the Canadian Leasing company, expects to leave within the next few days for Montreal, Canada, where he will confer with others who are heavily interested in the Golden Eagle claim and upon his return it is more than likely that heavy development will be instituted upon the Golden Eagle property.

The Hudson Mining company is prosecuting an energetic campaign of development through its main shaft and ore is being broken on both the 400 and 500 levels. On the lower level the showing is considered unusually good and it is evident that the fault encountered in the workings above has been passed and that the ore-shoots will henceforth be found to be persistent.

As a result of the ore showings on the Golden Eagle and Hudson properties new life promises to be injected into the Royston district. There are a few miners prospecting and doing assessment work in the camp and it need prove no surprise to learn of new discoveries being made with frequency.

### YOUTH IS HELD ON CHARGES OF MANY CRIMES

Police Find in His Possession Hundred False Moustaches, Goatees and Wigs

### KNOWN AS AFFABLE PICARON

Leaves Note in Homes Asking That Owner Will Pardon His Unknown Visit

LOS ANGELES, Nov. 13.—Jack O'Leary, who gave his age as 16, was in jail today pending the filing of burglary charges. Police say they found in his possession nearly 100 false moustaches, goatees, wigs, and masks an automatic pistol a jimmy and a flashlight besides a package of calling cards bearing the message: "I hope you will pardon this visit. The affable picaroon." Picaroon calling cards have been found in several looted Hollywood homes recently according to the police.

### NO TRACE JACOBSON IS FOUND AT WARM SPRINGS

Eight volunteers spent Sunday at Warm Springs in an effort to locate the body of Jacobson, who disappeared two weeks ago while en route from Bakersfield to Brigham, Utah. The recent storm eliminated all tracks that the man may have left. Two men remained in that vicinity to continue a further search.

### GREAT STRING AUTOS STALLED RESULT STORM

Those Marooned Extend Over Distance of Fourteen Miles in State of Iowa

CEDAR RAPIDS, Ia., Nov. 13.—Continued rain prevented the hundreds of motorists going to North Liberty to get their automobiles stored there last night after they became mired in the mud, returning from the Iowa-Minnesota football game at Iowa City. The belated motorists arriving from North Liberty today said there were 14 miles of stalled cars between Iowa City and Cedar Rapids Saturday night and there were still 27 cars in the ditch today.

### WEEKLY WEATHER REPORT

WASHINGTON, D. C., Nov. 13.—Pacific States: Generally fair weather, except rains in middle and latter part of the week in Washington and Oregon; temperature normal on the coast and below normal in the interior.

### CONFERENCE OF POWER WILL BE ON NOVEMBER 20

Doubtful Whether Peace Can Be Maintained in Constantinople Until Then

LONDON, Nov. 13.—Now that the Lusanne conference has been postponed to November 20, the question most urgently asked here is whether it will be possible to maintain peace in Constantinople in the interim. Restoration of communication has revealed such an ugly situation there it is evident that the utmost tact and skill will be necessary to prevent violent outbreaks.

### TWO DIE AS RESULT OF FIRE IN THEIR TENT

RIPON, Calif., Nov. 13.—Mrs. Wesley Brinkmeyer is recovering from burns received in a fire Friday night that caused the death of her husband and year old daughter, Pearl. The child died yesterday and Brinkmeyer died Saturday night. The family's tent caught fire when a can of gasoline exploded when Brinkmeyer attempted to use it in starting a stove fire.

### DEFENSE ATTORNEY IS MAKING CLOSING ADDRESS

LOS ANGELES, Nov. 13.—Defense Attorney Bertram Herrington opened the argument today to the jury in the case of Mrs. Clara Phillips, on trial for the hammer murder of Mrs. Alberta Meadows, whose mutilated body was found on a lonely hillside road in the northeast section of Los Angeles last July.

### FASCISM IS NOW SPREADING OVER COUNTRY

Many Nations Said to Be Ready to Take Up Proposition, According to Report

MOSCOW, Nov. 13.—The third international is considering tactics to combat the wave of fascism which is reported to be making tremendous strides in Germany, Poland, Rumania, Hungary and Czechoslovakia. Newspapers say the strength of the fascist is becoming international, both politically and economically.

### LIFE INSURANCE IS PAID VERY QUICKLY

A check for \$1000 was on Saturday afternoon handed to the family of the late Edward Yenter, by Otto Falk, chief clerk of the Halifax Tonopah Mining company. This represented the insurance carried upon the life of Mr. Yenter by the company through the Employers' Group Life Insurance company. Mr. Yenter had been in the employ of the Halifax Tonopah Mining company for about a year and a half as a hoist engineer, and was taken ill suddenly, dying within a few hours. Less than three weeks from the date of his demise the family was handed the check calling for \$1000.

### NYE COUNTY MEN ASK PAROLE FROM PRISON

Three Nye county men are asking for a parole from the state prison before the state board of pardons which is in session today at Carson City. Bill Collins convicted of horse stealing a year ago, desires his freedom, as does Frank Bellus, convicted of false pretenses, and Trinidad Gusman, convicted upon the charge of assault with intent to kill. There are 89 cases pending before the pardon board.

### MAN AND WOMAN ON TRIAL FOR CRUEL MURDER

Alleged to Have Set Pack of Dogs on Rancher Who Was Killed in Cabin

SACRAMENTO, Calif., Nov. 13.—The trial of Louis Bellardi and Mabel Ross, charged with the murder of Ibro Biso, a rancher, near Antelope last August, began before Judge Vicini Biso, murdered, was found on a cot in his cabin and badly mutilated. The Ross woman said her 18 dogs attacked him after she had a quarrel with him. The prosecution claims she set the dogs on Biso and that her husband was implicated.

### JAPANESE ARE BARRED UNDER HIGH RULING

Citizenship Denied and Alien Laws Held Sound, Says Webb of California

### ARE DENIED CITIZENSHIP

Free White Persons and Those of African Birth are Allowed Naturalization

WASHINGTON, D. C., Nov. 13.—Japanese are not eligible for naturalization in the United States, it was held by the supreme court today. The findings of the court disposed of two cases: one from Hawaii by Taka Ozawa against the United States and the other by Takao Yamashita and Charles Hideo against the secretary of state at Washington. The question largely turned upon whether section 2169, revised statutes restricting naturalization to free white persons and those of African descent was still in force.

SAN FRANCISCO, Nov. 13.—The fate of all of California's anti-Japanese legislation rested today on the decision of the United States supreme court, denying naturalization to Japanese. It was stated by Attorney General Webb that the court decided Japanese could be naturalized, all California alien land legislation would have fallen. Webb said, for there is no way in which it could have classified naturalized Japanese under such legislation. The state of California filed briefs with the United States supreme court both in Washington and Hawaiian cases supporting the anti-naturalization. Arguments on the separate actions to test the constitutionality of the anti-alien land laws of California are on the United States supreme court calendar for November 27.

HONOLULU, Nov. 13.—The legal attack of Taka Ozawa, a Japanese salesman for a large wholesale firm here, on American citizenship laws, is said to have drawn financial support from the Japanese colony at an effort to have it made the deciding test case. Among other contentions Ozawa advanced the claim that he is white, in an effort to prove the point, he traced the history of the Japanese race backward for several thousand years, to the Aino tribes. He included in his argument the assertion that Soliman, General James M. Beck had expressed the belief that this particular portion of the Japanese race had the distinct mark of the Caucasian.

### FOUR DIE IN FIRE

AMOY, Miss., Nov. 13.—Four persons were burned to death today in a fire which destroyed the T. P. A. hotel here.

## Butler Theater Today

Special attraction, the Rex Ingram production of

### THE PRISONER OF ZENDA

The picture story of how Rassendyll, a stranger, came within a week to lose his heart to a lovely princess and wear a crown

The play that has thrilled millions now made into a photo drama by the director of The Four Horsemen of the Apocalypse. Lower floor, 30c; balcony, 25c; children 20c.
